Seat-Cover Dispenser and  
Toilet Tissue Dispenser

B-270 Surface-Mounted Sanitary  
Napkin Disposal

B-76727 Double Robe Hook

### Project: Tou-Towers

## Double the Space, Double the Aesthetic

Located in Tel Aviv's Yitzhak Sadeh complex, Tou-Towers consists of two commercial office buildings, each with 34 floors. The two towers, designed by Yaski-Mor-Sivan Architects, feature a mostly twin appearance and sleek feel. Both towers include cafes, restaurants and other services on the ground floors, with convenient exits to an adjacent park.

These two state-of-the-art commercial office buildings required innovative, hygienic washroom fixtures. That's where Bobrick stepped in, providing Tou-Towers with a comprehensive set of washroom products ranging from combination paper towel dispenser/waste bin units to soap dispensers, toilet tissue dispensers, seat cover dispensers and more. Bobrick's contemporary washroom solutions proved to be the perfect fit for both towers.

### SUSTAINABLE & ECONOMICAL

Bobrick's TrimLineSeries™ Surface-Mounted Paper Towel Dispenser includes TowelMate, which reduces paper towel usage up to 20 percent.

### A Simplified Experience

Architects and facility managers both know that hygienic, visually striking washrooms play a crucial role in the success of new commercial buildings. So, together with the Rubinstein Avraham building firm, Yaski-Mor-Sivan specified an array of Bobrick products for Tou-Towers.

The towers feature 160 Bobrick B-380349 TrimLineSeries™ Surface-Mounted Paper Towel Dispensers/Waste Bins with built-in TowelMate® to reduce paper towel usage up to 20 percent by eliminating the dispensing of handfuls of towels at one time. They also include 72 B-262 ClassicSeries® Surface-Mounted Paper Towel Dispensers with satin-finish stainless steel. Each ClassicSeries® towel dispenser accommodates either 400 C-fold or 525 multifold towels.

To simplify soap refills and ongoing maintenance, the design team also specified 240 B-822 Manual Top Fill Liquid Soap Dispensers. Together, Bobrick's B-822 soap dispensers and B-380349 and ClassicSeries® paper towel dispensers support hygienic, economical handwashing and drying.

Throughout Tou-Towers, Bobrick paper towel dispensers, soap dispensers, toilet tissue and seat cover dispensers and sanitary napkin disposal units complement one another to deliver a pleasing washroom aesthetic while also providing the durability required to service two busy commercial office buildings for years to come.
